REQUIREMENT

CIA/RR/E/R1/60, requesting a description of the Sverdlovsk  
Chemical Equipment Plant, Uralkhimash

REMARKS

The Sverdlovsk Chemical Equipment Plant, Uralkhimash, appearing on [redacted] photography, is located 7.5 miles southeast of Sverdlovsk in the village of Nizhne Isetskiy (see Figure 1). The plant is the second-largest producer of chemical equipment in the USSR; it also produces high-pressure boilers and supplies metallurgical, aluminum, oil-refining, pharmaceutical, sugar-refining, fertilizer, and textile industries. 1/ Although there are recent indications that the plant may develop and manufacture fuel tanks for large guided missiles, 2/ there is no photographic evidence to substantiate this report.
